- Apple HIG
- Git / GitHub
- REST APIs
- Cloud messaging
- MVVM Architecture

About Me

Complex problem-solver with analytical and driven mindset. Dedicated to achieving demanding development objectives according to tight schedules while producing impeccable code.

Experience

iOS Developer

Freelance
2021 -current

- Researched and selected APIs for integration into development projects.
- Worked with quality assurance team to confirm app compatibility with analogous solutions on other platforms.
- Integrated existing third-party APIs to shorten development times and add interactivity.
- Maintained existing mobile applications by designing patches to be applied via iOS automatic updates.
- Designed user experience frameworks applicable to fit both iPad and iPhone screens.
- Followed Apple's Human Interface guidelines to create products aligned with iOS Ul norms.
- Applied Apple's Swift development language to code native apps for iOS platform.
- Translated basic design plans into full iOS app frameworks, delegating project components to
- coprooriate team members.

Education

- Ibn Sina **2017-2021**
